Fire lend thy kiss!. I liked the game. but unfortunately i didnt recieve the OST wVc is in the pre-order list. And it says " In The Library" already but i cant even find it.. Amazing Soundtrack. Thanks so much for this Amazing Collection Soundtrack!

We love Great Games!

We love Great Music!

We Love You So Much Developers, Musicians and Publishers, Thanks a lot for these Masterpieces! <3 ^^

Best Regards from Colombia!. Solid OST with selectable MP3 & FLAC downloads.

A little pricier than other OST's on steam, but not unreasonably priced.

I am glad to see bigger publishers are moving their OST's onto Steam.. Good music, but seems to be missing some tracks, such as the themes of: chimera, gorechimera, drake (non-guitar version), cockatrice, golem and iron golem. The wonderful music from the dragon chase sequence is also missing.. They're masterworks, all. You can't go wrong.. They're masterworks all, you can't go wrong.
