This is a marvellous piece of educational software. I am a certified construction engineer now. (Recommended for couch coop (but it's FFA in reality - may the strongest warthog win)).. My first impression is very positive. At once it took me couple of

---

minutes to reach the balance and get along with a keyboard, and as I did the gameplay was nothing else but fantastic fun! And when I was finally able to look around I noticed those little funny elements. Still struggling to go higher than outer space level but it looks very promising! Really great game, I enjoy playing it a lot :-). I think it is a really great party game, have your friends around and cooperate to get to the highest level. I'm still curious what's at the end. It is really funny when you try to record your gameplay and then when you watch it, you find those funny details and what you did wrong. Looks very easy when you watch it from a side, but when it comes to playing it by yourself you see how challenging it can be. Very well made, eye-catching, funny and very surprising. There are no two same gameplay. I recommend not to pick the middle block to start at once, but to play a lil bit before you let the water run. Get along with keyboard and different blocks. Try to figure out your own strategy. And it feels really rewarding after some time when you finally reach another level. <https://www.youtube.com/watch?v=6HjFIKjCsul>. What a great local co-op game. It is perfect to pick up and play with very simple rules and controls. Everything about it is flawless. Get it ASAP.. Really fun, really funny, lots of laughs in multiplayer mode. Simple controls and gameplay make it great for kids. 8yo comment: It's really really funny and it's a very interesting game. And try not to lose your makers! 7yo comment: BUILD! BUILD BUILD BUILD BUILD! Cool, funny, BUILD! (Drown.). What a great local co-op game. It is perfect to pick up and play with very simple rules and controls. Everything about it is flawless. Get it ASAP.. This is a marvellous piece of educational software. I am a certified construction engineer now. (Recommended for couch coop (but it's FFA in reality - may the strongest warthog win)). This is a marvellous piece of educational software. I am a certified construction engineer now. (Recommended for couch coop (but it's FFA in reality - may the strongest warthog win)). This game is hot garbage. Literally the control scheme is super dumb. The characters have 0 depth and personality. And above all else it turned me gay.
